Changes in the Alberta Cabinet.

A change has been made in the Alberta
government, the first to be made of any ex-
tent since the organization of the adminis-
tration. The change is due to the resignation
of Hon. W. T. Finlay, minister of agricul-
ture, and the need of engaging the cabinet.

Hon. Mr. Finlay is resigning on account
of ill-health. His health has been failing for
some time. He will continue as minister for
Medicine Hat.

The vacancy will be filled by Duncan
Archibald, member for Oids, who is very well
known throughout the province. He is a
practical farmer, as well as an active news-
paper man.

Mr. W. A. Buchanan, member for Leth-
bridge, and editor of the Lethbridge Herald,
will be taken into the cabinet, probably as
provincial treasurer.

Mr. Lessner, member for Paken, will be
minister without portfolio.

The new ministers are at Edmonton, and
will probably be sworn in today.

Reports from every part of Alberta
go to show that there will be a bumper
attendance at the big Sunday
School Convention in Edmonton Oct.
27, 28 and 29. All denominations are
interested and will be well represented.

The rumor is current that an amal-
gamation has been effected between
the Canadian Western Railway, which
has just finished the location of a line
from Hute City, Mont., to Calgary,
and the Alberta and Great Western

GANANOQUE MAN OUT OF TROUBLE

HAD RHEUMATISM, BUT DODD'S
KIDNEY PILLS CURED IT.

Hugh Abernethy on His Feet Again—
Cure is Easy, Simple, Natural and
Permanent.

Gananoque, Ont. (Special).—That Rheumatism can be cured surely, simply and permanently is the good news that Hugh Abernethy, a well-known resident of King Street, is spreading among his neighbors.

"I had suffered from Rheumatism and stiffness of the joints," Mr. Abernethy states. "My muscles would cramp, I could not sleep, and I had terrible headaches. I took many different medicines but nothing did me any good till I tried Dodd's Kidney Pills. Six boxes put me on my feet again."

Others who have taken Mr. Abernethy's advice and used Dodd's Kidney Pills are also loud in their praises of the old reliable Canadian Kidney remedy. For Dodd's Kidney Pills cure Rheumatism and other blood diseases by curing the Kidneys. Sound Kidneys keep the blood free from impurities. And with no impurities, such as uric acid in the blood, you cannot have such painful and dangerous diseases as Pain in the Back, Rheumatism, Lumbago, Neuralgia, and Heart Disease.

Keep your Kidneys strong and well with Dodd's Kidney Pills and you can face the cold, wet days of fall without a fear of Rheumatism.

A lady who was very plain-looking called on a friend.

"This friend's little girl came into the room and her mother introduced her."

"But, mamma, isn't she awfully homely," said the "young hopeful."

"Why, Laura, you mustn't say such things, it isn't polite."

"I meant it only as a joke."

"But, dear, how much more of a joke it would have been if you had said, 'How pretty she is.'"

Deafness Cannot Be Cured

By local application, as it does not reach the diseased portion of the ear, there is only one way to cure Deafness, and that is by the use of the medicine known as Dr. Williams' Pink Pills for Pale People. This medicine is made of an extract of the human blood, and it is the only medicine that can be taken into the system and reach the diseased portion of the ear. It is the only medicine that can be taken into the system and reach the diseased portion of the ear. It is the only medicine that can be taken into the system and reach the diseased portion of the ear.

How Did He Know

After dinner, when the ladies had gone upstairs, the men over their coffee and cigars talked as men will of love. All of a sudden the host cried in a loud voice: "I tell you, gentlemen, this is the truth. I have kissed the dainty Japanese girl. I have kissed the South Sea Island maiden; I have kissed the girls of England, of Spain, of Germany, even of America, and it is most true to kiss my wife is best of all."

Then a young man cried across the table: "By heaven, sir, you are right there."

Whenever physicians' fees seem extortionate it is comforting to recall a certain famous eye specialist, one of whose patients, coming to pay his bill, growled: "Doctor, it seems to me that \$300 is a big charge for that operation of mine. It didn't take you over half a minute."

"My dear sir," the other answered, "in learning to perform that operation in half a minute I have spoiled over seven weeks of such eyes as yours," Lippincott's.

"Wasn't that young Mr. Tiff who left the house as I came in?" asked the judge of his eldest daughter.

"Yes, papa."

"Did I not issue an injunction against his coming here any more?"

"Yes, papa; but he appealed to a higher court and mamma reversed your decision."

Little Willis—"Say, pa, what is a foregone-conclusion?"

Pa—"It is the knot in the string a woman ties around her husband's finger, my son."

**Advice From a Mother
To All Other Mothers**

The young mother—the inexperienced mother—is always glad to get the advice of the more experienced in the care of her little one. Thousands of mothers have emphatically said that there is no medicine equal to Baby's Own Tablets for keeping little ones well, or restoring health if illness comes suddenly. The young mother can safely follow the lead of these others. Mr. John Shortell, Georgetown, Ont., says:—

"I do not believe a day without Baby's Own Tablets in the house. I believe they saved my youngest child's life. At the age of three months she cried all the time with indigestion. Our doctor did all he could for her, but it did not seem to help her. Then I got Baby's Own Tablets and they worked a wonderful change. They seemed to cure the stomachic, moved her bowels regularly, and she has been since been a healthy child." Sent at 25 cents a box by all druggists or by mail from The Dr. Williams' Medicine Co., Brockville, Ont.

"And this," said the hostess, who was showing some relics, "is the trunk one of my ancestors brought over on the Mayflower."

"In other words," rejoined the guest, "it is the trunk of your family tree."

The average man thinks his lamp of generosity is at least three times as large as it actually is.

A Fashion Gaiety Killed.

Womers of England in the eighteenth century wore large hats. Samuel Rogers once traveled to Italy in the same coach with a woman who was compelled to sit on a stool on the floor of the coach on account of the inconvenient height of her headpiece. Hannah More, who was all for simplicity in costume, writes in her diary that she has seen women wearing on their heads "an acre and a half of shrubbery, besides roses, grass plants, tulip beds, clumps of peonies, kitchen gardens and greenhouses." The credit of killing this fashion is given to Garrick. He appeared one night on the stage with a mass of vegetables on his head and a carrot sticking out from each side, to the shame and confusion of many fair members of his audience."

Dr. Johnson's Resolutions.
Dr. Johnson compiled this list of good resolutions on his fifty-first birthday in 1790: "Resolved, Doo juvante, to combat notions of obligations; to apply to study; to reclaim imaginations; to consult the resolves on Tetty's collar; to rise early; to study religion; to go to church; to drink less strong liquors; to keep a journal; to oppose laziness by doing what is to be done tomorrow; rise as early as I can; send for books of history of war; put books in order; scheme of life."

The Proper Way.
"I would like to ask," said a lady visiting America for the first time, "when you call here do you turn down the end of your visiting card or not?"

"No," said a man; "you lift it in the middle."—Ladies' Home Journal.

Ravages of Consumption

ALL HER RELATIVES HAD
DIED OF CONSUMPTION

In the year 1890, 18 years ago, Mrs. G. S. Connor, of Belle Isle, N.S., was in a condition. All her relatives had died of consumption, and she was very ill.

At this point her husband suggested to try Dr. T. A. Slocum's medicine. The doctor who attended said: "Psychic was worst, but it effected a wonderful cure. Eighteen years after in a time losing time August 16, 1908, Mrs. Connor says, 'I am better than I have been for years. My lungs have not troubled me since I took your treatment. My physician said I could not take a better tonic than Dr. T. A. Slocum's medicine.'"

Pat, a miner, after struggling for years in a far-off western mining district, finally giving up in despair, was about to turn his face outward, when suddenly he struck it rich. Soon afterwards he was seen strutting along, dressed in fine clothes. One day an old friend stopped him, saying, "And are you, Pat? I'd like to talk to you."

Pat stretches himself proudly. "If you want to talk to me I'll see you in my office. I have an office now, and my hours is from a.m. to the mornin' to p.m. in the afternoon."

It Rubs Pain Away.—There is no liniment so efficacious in overcoming pain as Dr. Thomas' Electric Oil. The oil that rubs in rubs the pain away and on this account there is no preparation that stands so high in public esteem. There is no sure pain-killer procurable, as thousands can attest who have used it successfully in treating many ailments.

"So they are coming to try that minister and have him tried out of the church," asks the list ungenerately.

"I should say so. It will go hard with him," answers the second.

"What did he do? Deny any of the dogmas?"

"No. He argued that they ought to stop taking up collections."

Blox—"Yes."

Knox—"Then we will let it go at that."

Editorial Note

The Council at its Monday night meeting decided to dispense with the services of the present constable because of several irregularities found in his department. No doubt they did not do this without thorough and just consideration of the charges brought against him, and while he has been a first-class man in some respects the Council felt the charges coming before them could not be overlooked.

It is hoped that some arrangements will be made at once towards the policing of the town. We have a fairly good name for being a quiet and law abiding community, but a little laxity in these matters will make a big difference and we cannot afford to lose the prestige we already have in these matters.

First Entertainment a Success.

The first entertainment of the series of five being given here under the auspices of the Presbyterian church was a great success, and fully bears out the contention held by several people that if some really good entertainment is provided for the public they will appreciate it. The house was fairly well filled, and judging by the applause and laughter which filled the hall after each number was rendered, the whole performance was greatly appreciated by the audience.

The programme consisted of songs, magic and violin selections, and it would be hard to say which was the best. Miss Cassels has a splendid contralto voice, which with a charming presence, makes her a favorite with her audiences. All her numbers were splendid, but the one that seemed to appeal to the audience most was the "Last Rose of Summer," with violin and piano accompaniment. Percival the Wizard was certainly in his element, his tricks bringing down the house. His flag performance was especially good. Out of apparently two small pieces of tissue paper he produced about one hundred small flags and two immense Union Jacks, poles and all. This was certainly a puzzle to the audience. Last but by no means least is Miss Fenwick, violinist. She fairly made her violin talk. Her renditions of "The Canary" and "Cavatina" being especially good. In the first you would almost hear the birds singing. Miss Fenwick is certainly a master of her instrument.

It is promised that the balance of this series of entertainments will be fully as good and better than the first one. The next to appear will be the English Grand Opera "The Merry Widow" on November 3rd. Secure your course tickets now, they will only cost you \$2.75 from A. Lavers, H. W. Chambers, A. Studer or H. E. Osmond, and help to bring a good class of shows to Didsbury.

Council Meets.

The Council held their regular meeting on Monday night at the Council Chamber, Mayor Corbett, Councillors Hunsperger, Osmond, Hembling, Moyer, Clerk Reed and Solicitor Patterson being present.

A few bills were presented but as some of them were incorrect they were laid on the table.

The council have been investigating different charges against the constable, and after due consideration of same it was unanimously decided by the council to dispense with his services. The meeting then adjourned.

Canadian Wheat Wanted.

The representatives of the German-Canadian Economic Association pointed out the fact that Germany is greatly in need of Western Canada wheat to grade up the softer Argentine and Russian wheats, and also that Germany uses very great quantities of the lowest grades of wheat to make bread for the lower classes, who are graduating from the formerly exclusive use of rye for their bread, and are taking up wheat bread in its stead.

The formerly large sale of Canadian apples in the German market and their present absence from that market—much to the sorrow of the German housewife—was also dwelt upon by Dr. Nesir and Mr. Blakie, who said that their association is so desirous of promoting better trade relations between Canada and Germany that they have been sent to Canada on just such a mission, backed by the most prominent merchants, the largest manufacturers and the greatest producers of raw material in Germany.

The October Rod and Gun.

On the eve of the big game hunting season, the October number of Rod and Gun, of Canada, published by W. J. Taylor, of Woodstock, Ont., gives foremost attention to big game hunting stories. They will be found varied enough in both localities and experiences to interest all sportsmen, and many will doubtless recall incidents in their own careers corresponding with some related in such pleasing fashion in these pages. In the same way the article on "The Characteristics of a Fine Backwoods Guide," will remind numerous readers of character features shown by their own guides and revive many pleasant memories—a rich storehouse of which is the property of every sportsman. Fish culture in New Foundland will receive attention from every brother of the rod, and its inclusion shows that even at such a time the interest of the devotees of the fishing art are not neglected. Other seasonable pages are given, making the number one that should be the companion of every sportsman either at home or on his vacation, giving him many pleasant half hours in perusing what others have done and enabling him to fight his own battles o'er again.

Announcement.

I wish to announce to the general public that I have opened a boarding house and restaurant in the building formerly occupied as a furniture store, third door west of the Golden West hotel on Oiler street and opposite Pioneer office. Plenty of good clean rooms. Meals served at all hours in the best style. We solicit a share of your patronage.

The Three Hills Fair.

Three Hills was on fete on Tuesday, October 12th, the occasion being the annual Three Hills Agricultural Society's Fair, which was a great success from every point of view, the only drawback to everybody's enjoyment being the cold east wind which made itself felt for some hours.

There was a large number of visitors present from all parts who were surprised at the large number of exhibits, especially in the horse classes, which were certainly far excellence and all well filled, showing that the farmers of the Three Hills district are great believers in good horse flesh. The cattle and swine classes were not as well filled as expected, the country surrounding Three Hills being so well adapted for this department of general farming that it was a matter of surprise that more of this class of stock were not shown.

The poultry classes were well filled and some splendid specimens of the feathered tribe were exhibited, especially in the chicken and turkey classes. Great attention was given to the grain exhibits, which classes were very well filled, some splendid samples of wheat and oats being shown. The dairy department was also well filled, but perhaps the exhibits that caught the eye most in the main building was the roots and vegetables. Tomatoes, pumpkins, peas, beans, besides all the common varieties of garden truck was present in great variety and was a revelation to outsiders as to what can be produced in this splendid district.

Altogether the officers and directors of the Agricultural Society are to be commended for their enterprise in getting the show together, and although this is only the second show held by the society, it would have done credit to a much larger town which had better facilities for an exhibition.

The day ended with horse races and running races which were well carried through, some fast horses being present, but as we have not received a list of winners in these events we are unable to publish them.
